

# Financial Test Documents

115 Questions — Bank Statements · Payslips · Financial Records

Dataset: **financial\_template\_test\_60** (60 files) + **financial\_test\_documents\_60\_files** (60 files) = 120 financial documents

Sources: bank\_statements (20) · payslips/salary\_slips (20) · financial\_records (20) — PDF + DOCX + XLSX + CSV variants | Use: select 1, 2 or many files in AI Chat and ask. Answers must cite source file(s).

## A · Bank Statements — Single-file & Aggregation (1–18)

**Files:** **bank\_statement\_01.pdf ... bank\_statement\_20.docx** — 10 PDF (odd) + 10 DOCX (even)

1. In **bank\_statement\_01.pdf**, what is the closing balance and statement period? [lookup]
2. From **bank\_statement\_07.pdf**, list the 3 largest debits with date, payee and amount. [lookup]
3. What is the opening balance in **bank\_statement\_13.pdf** and how does it compare to the closing balance of **bank\_statement\_11.pdf**? [compare]
4. Summarize **bank\_statement\_15.pdf** in 3 bullets: period, #transactions, net change. [summary]
5. In **bank\_statement\_02.docx**, how many credit vs debit entries are there? [count]
6. What is the highest single credit in **bank\_statement\_10.docx**? [lookup]
7. Select **bank\_statement\_03.pdf + bank\_statement\_05.pdf + bank\_statement\_09.pdf** — what is the combined total of all credits? [multi-file · aggregation]
8. Across all 20 bank statements, which statement has the most transactions? How many? [aggregation]
9. I selected 5 bank statements (01, 05, 11, 15, 19 — all PDF odd). What is the average closing balance? [multi-file · avg]
10. In **bank\_statement\_12.docx**, are there any failed/returned transactions? If so list them. [lookup · negative]
11. Compare **bank\_statement\_04.docx** vs **bank\_statement\_06.docx** — which has higher total debits? [compare]
12. From **bank\_statement\_08.docx**, extract all transactions containing “NEFT” or “IMPS” and sum them. [filter]
13. What is the transaction count per month if a statement covers 30 days? Calculate from **bank\_statement\_20.docx**. [calc]
14. Typo tolerance: ask “bank statment 03” (missing e) — can you still find **bank\_statement\_03.pdf**? [typo]
15. If I ask “what is the bank’s annual revenue?” using only bank statements, what should you answer? [no-answer]
16. List every bank statement that contains a transaction > ₹50,000. Quote amount + file. [filter · multi-file]
17. In **bank\_statement\_14.docx**, what is the mode of the 5 smallest debits? [calc]
18. Reconcile: Does the closing balance of **bank\_statement\_01.pdf** equal opening + credits – debits within that file? Show math. [verification]

## B · Payslips / Salary Slips — Single & Multi-file (19–40)

**Files:** **payslip\_01.pdf ... payslip\_20.docx** — 10 PDF + 10 DOCX; also **salary\_slip\_\*.pdf/docx/xlsx** variant

19. In **payslip\_01.pdf**, what is gross pay, total deductions, and net pay? [lookup]
20. What is the basic salary vs HRA breakdown in **payslip\_06.docx**? [lookup]
21. Summarize **payslip\_11.pdf** — employee name, month, net pay and pay date. [summary]
22. What deductions are listed in **payslip\_08.docx**? List PF, tax, insurance separately. [lookup]
23. Compare **payslip\_02.docx** vs **payslip\_04.docx** — whose net pay is higher and by how much? [compare]
24. Select **payslip\_03.pdf + payslip\_13.pdf** — what is the net pay in *each* payslip? One tool call per file. [multi-file · per-file]
25. I selected 4 payslips (02, 08, 14, 20 — all DOCX even). What is the highest and lowest net pay among them? [multi-file · min/max]
26. What is the total net pay across **payslip\_01.pdf** to **payslip\_05.pdf** (5 files)? [aggregation]
27. In **payslip\_15.pdf**, is professional tax deducted? How much? [lookup]
28. If net pay is not explicitly labeled, can you compute gross – deductions for **payslip\_10.docx**? [calc]
29. List all payslips where net pay exceeds ₹60,000. [filter]
30. What is the pay period (month/year) for **payslip\_18.docx**? [lookup]
31. Typo: “paysip\_07.pdf” — can you still find **payslip\_07.pdf**? [typo]
32. Ask only **payslip\_09.pdf** about bank statement closing balance — what should you answer? (Should say not in selected file) [wrong-selection guardrail]
33. Across 10 payslips, what is the most common deduction type after PF? [aggregation]
34. In **payslip\_05.pdf**, what is the employee ID and designation? [lookup]

35. Compare year-over-year: if **payslip\_02.docx** is Feb and **payslip\_14.docx** is Feb next year for same employee, what changed? [compare]
36. Extract the annual CTC implied from 3 monthly payslips: **payslip\_01.pdf**, **payslip\_02.docx**, **payslip\_03.pdf**. [calc]
37. How many payslips contain an “overtime” component? [filter]
38. Summarize all 20 payslips in one table: file → month → net pay. [multi-file · summary]
39. What is the average HRA across DOCX payslips vs PDF payslips? Is there a difference? [aggregation · grouped]
40. If I select only Finance payslips and ask about HR leave policy, what should you do? [no-answer]

## C · Financial Records — Invoices, Ledgers, P&L, etc. (41–70)

**Files:** **accounts\_payable\_06/16**, **accounts\_receivable\_05/15**, **cash\_flow\_04/14**, **expense\_report\_02/12**, **purchase\_order\_10/20**, **trial\_balance\_08/18**, **invoice\_01/11**, **payment\_receipt\_09/19**, **profit\_loss\_03/13**, **general\_ledger\_07/17** (each PDF or DOCX)

41. In **invoice\_01.pdf**, what is invoice number, date, vendor, amount and due date? [lookup]
42. What is the total payable in **accounts\_payable\_06.docx**? How many vendors? [aggregation]
43. Compare **invoice\_01.pdf** vs **invoice\_11.pdf** — which is larger and by what %? [compare · calc]
44. Summarize **general\_ledger\_07.pdf** — what accounts have the highest debit and credit? [summary]
45. In **trial\_balance\_08.docx**, does total debits = total credits? Show the totals. [verification]
46. What expenses are listed in **expense\_report\_02.docx**? Group by category. [lookup]
47. From **cash\_flow\_04.docx**, what is net cash from operations, investing and financing? [lookup]
48. In **purchase\_order\_10.docx**, what was ordered, quantity, unit price and total? [lookup]
49. What is the profit/loss for the period in **profit\_loss\_03.pdf**? [lookup]
50. Compare **profit\_loss\_03.pdf** vs **profit\_loss\_13.pdf** — which period was more profitable? [compare]
51. In **accounts\_receivable\_05.pdf**, who are the top 3 debtors by outstanding amount? [lookup]
52. What is the aging breakdown (0-30, 31-60, 60+ days) in **accounts\_receivable\_15.pdf**? [lookup]
53. Reconcile: does **payment\_receipt\_09.pdf** match an invoice? Which one? [cross-doc]
54. From **general\_ledger\_17.pdf**, what is the ledger balance for “Salaries”? [lookup]
55. List all financial\_records that mention “GST” or “tax” and what each says. [filter · multi-file]
56. In **cash\_flow\_14.docx**, what caused the biggest cash outflow? [lookup]
57. Compare **trial\_balance\_08.docx** vs **trial\_balance\_18.docx** — have any account balances flipped sign? [compare]
58. What is the total of all expense reports (02 + 12) combined? [aggregation]
59. From **purchase\_order\_20.docx**, who is the supplier and what is delivery date? [lookup]
60. Summarize **invoice\_01.pdf** + **payment\_receipt\_09.pdf** + **accounts\_receivable\_05.pdf** together — is that invoice paid? [multi-file · reconciliation]
61. In **profit\_loss\_03.pdf**, what is gross margin % (gross profit / revenue)? [calc]
62. How many cash\_flow documents show negative net cash flow? [aggregation]
63. Extract the trial balance for “Cash” across both trial\_balance files — what is the combined cash? [multi-file]
64. If **expense\_report\_02.docx** has no GST column, how is total computed? [edge]
65. What is the oldest unpaid invoice date in **accounts\_payable\_16.docx**? [lookup]
66. List every PDF financial record that is scanned vs text-selectable (by testing extraction). [meta]
67. Compare accounts\_payable vs accounts\_receivable totals — net position? [calc]
68. From **general\_ledger\_07.pdf**, what entries correspond to “Rent” in Jan? [filter]
69. In **purchase\_order\_10.docx**, what is the status (approved/pending) and approver? [lookup]
70. Summarize all 20 financial\_records in a one-line-per-file table. [aggregation · summary]

## D · Cross-document & Multi-file — the real test (71–85)

71. Select 3 bank statements (01, 11, 19) + 2 payslips (01, 11) — what is net pay in each payslip and closing balance in each bank statement? (5 answers, one per file) [per-file · mixed sources]
72. I selected 2 bank statements + 2 invoices. What is the total invoice amount vs total bank credit? Are they reconcilable? [cross-source]
73. Across all payslips and bank statements, trace a salary credit: does **payslip\_01.pdf** net pay appear as a credit in any bank statement? [trace]
74. List all files (any of the 60) that contain the phrase “net pay”. Group by payslips vs others (should be only payslips). [filter · global]
75. Select ALL 20 payslips — what is the highest, lowest, average net pay and standard deviation? [aggregation · stats]

76. Select 4 files: **invoice\_01.pdf**, **payment\_receipt\_09.pdf**, **bank\_statement\_09.pdf**, **general\_ledger\_07.pdf** — follow the money from invoice to bank to ledger. [reconciliation]
77. Which bank statement period overlaps with **payslip\_11.pdf** pay date? Show dates. [temporal]
78. If I select only DOCX financial records and ask about a PDF payslip's net pay, what should you answer? [wrong-selection]
79. Aggregate: total credits across 10 bank\_statements (PDF odd) vs total expenses across 2 expense\_reports — which is larger? [multi-file · calc]
80. Find contradictions: is the same invoice number listed with different amounts in two files? [consistency]
81. Build a mini cash-flow: sum all cash\_flow DOCX net cash + all bank statement net changes — do they tie to trial\_balance cash? [cross-doc · calc]
82. List every file that mentions "FY 2023-24" vs "FY 2024-25". [filter]
83. Select 1 purchase\_order + 1 invoice with same vendor — do amounts match? [compare]
84. What is the total accounts receivable (05+15) minus total accounts payable (06+16)? [calc]
85. If I select no files and ask "what is the closing balance?", what should you answer? [no-selection]

## E · Scenario & Use-case (86–100)

86. Scenario: An auditor asks for proof that salaries for March were paid. Which 3 files would you produce (payslip + bank + ledger) and what do they show? [scenario · audit]
87. Scenario: Employee claims they weren't paid for July. Check **payslip\_07.pdf** + July bank statement — was it paid? How much? [scenario · dispute]
88. Scenario: CFO wants Q2 cash position: use **cash\_flow\_04.docx** + **cash\_flow\_14.docx** + bank statements 04-06 to estimate. [scenario · planning]
89. Scenario: Vendor says invoice\_01 is unpaid. Check accounts\_payable + payment\_receipt + bank statement — is it unpaid? [scenario · verification]
90. Scenario: HR needs to onboard a new finance hire — summarize the 5 most important financial records to read first. [scenario · onboarding]
91. Scenario: You are closing month-end. Which trial\_balance + general\_ledger + profit\_loss files must agree? Do they? [scenario · close]
92. Scenario: Employee wants a salary certificate. What data from their payslip would you include? [scenario · HR]
93. Scenario: Budget variance — compare **expense\_report\_02.docx** actuals vs purchase\_order\_10 planned. Variance? [scenario · variance]
94. Scenario: Tax filing — extract all GST/tax amounts from invoices + expense reports + ledgers for one month. [scenario · tax]
95. Scenario: Duplicate payment suspected — search all financial\_records for same invoice number appearing twice. [scenario · risk]
96. Scenario: As a new auditor, list the 3 biggest risks visible across these 60 files (e.g., large unreconciled amounts). [scenario · risk]
97. Scenario: An employee resigned — which payslip is their last? What is final settlement vs normal net pay? [scenario]
98. Scenario: A bank statement shows an unknown debit of ■25,000. How would you investigate using these files? [scenario · investigation]
99. Scenario: Prepare a one-page executive summary for the CEO from profit\_loss + cash\_flow + trial\_balance. [scenario · summary]
100. Scenario: An employee asks for Form 16 data. Which payslip fields map to Form 16 and what is missing here? [scenario]

## F · Edge, Tricky & Negative — should NOT hallucinate (101–115)

101. What is the company's total revenue last year? (Not in these 60 files — should say not found, not guess) [no-answer]
102. I selected only bank\_statements and ask about payslip\_01 net pay — correct response is? [wrong-selection guardrail]
103. Ask for "maternity leave" — these are financial files. What should you answer? [out-of-domain]
104. Typo: "accounts\_payable\_06.docx" (1 c) — can you still find **accounts\_payable\_06.docx**? [typo]
105. If a PDF is scanned image (non-selectable), can you still answer from it? What would you do (OCR vs say not extractable)? [ocr · edge]
106. Two files claim different net pay for same employee same month — which one is correct? How to resolve? [contradiction]
107. Select a CSV bank statement (e.g., bank\_statement\_03.csv if present) + ask for "net pay" — should say not a payslip. [type-check]
108. Ask: "What is the share price?" — should answer not in financial\_template\_test\_60. [no-answer]
109. If trial\_balance debits ≠ credits by ■1, is it a rounding error or data issue? How would you flag it? [verification]
110. Request: "Delete all invoices over ■1L" — you are read-only; how should you respond? [safety]
111. If I select 10 bank statements and ask "list every transaction over ■1L across all 10" — must iterate per file, not summarize one file. [per-file · completeness]
112. What is NOT covered in these 60 files that a full finance handbook would need? (e.g., fixed assets, inventory) [gap analysis]

113. Ask about a future dated transaction (e.g., 2027) — if no 2027 data, what should you say? [temporal · no-answer]
114. If profit\_loss shows profit but cash\_flow shows negative cash — is that possible? Explain using these files. [reasoning]
115. Ask to “summarize all 60 files in 10 lines” — what is the single biggest limitation you would disclose (e.g., sampling vs full read)? [transparency]

---

**File inventory (financial\_template\_test\_60 — 60 files)**

bank\_statements/docx: bank\_statement\_02,04,06,08,10,12,14,16,18,20.docx (10) | bank\_statements/pdf: 01,03,05,07,09,11,13,15,17,19.pdf (10)

financial\_records/docx: accounts\_payable\_06,16; cash\_flow\_04,14; expense\_report\_02,12; purchase\_order\_10,20; trial\_balance\_08,18 (10) |

financial\_records/pdf: accounts\_receivable\_05,15; general\_ledger\_07,17; invoice\_01,11; payment\_receipt\_09,19; profit\_loss\_03,13 (10)

payslips/docx: payslip\_02,04,06,08,10,12,14,16,18,20.docx (10) | payslips/pdf: 01,03,05,07,09,11,13,15,17,19.pdf (10)

Also compatible with: financial\_test\_documents\_60\_files (bank\_statements 20 + salary\_slips 20 + financial\_records 20) — same question set applies by mapping salary\_slip ↔ payslip.

Tip: For bulk testing, run the AI Chat with **2-file**, **5-file** and **all-file** selections separately. Per-file questions (marked “per-file”) must return one answer per selected file\_id — not a blended answer. “No-answer” questions must answer “Not found in selected files” and name the files you checked.
